The Village of Rhinebeck has recently been attacked by a crime of unspeakable magnitude. Anti Semitic graffiti was painted at two locations within the Village of Rhinebeck. This is a hate crime and is an atrocity that will not be tolerated. At present this is an active Police investigation and I will not comment any further as to the details surrounding this case. What I will state emphatically is that the Village of Rhinebeck will not tolerate this type of behavior. Rest assured that we will use every resource at our disposal to investigate, pursue and apprehend the individual or individuals responsible for these crimes, prosecute them to the full extent of the law, and bring them to justice.
