Village of Rhinebeck to conduct Municipal Parking Lot maintenance

Mayor Jim Reardon announced today that the municipal parking lot on East Market St. will be partially closed on July 18th and 19th for maintenance. Reardon states, "We began an upgrade to the lot last fall by installing new underground wiring and a new and improved lighting system. This spring before the leaves came out we trimmed the trees so that the new lights could illuminate the area properly and we completed the installation by having a mason face out the light pole bases with stone for a more attractive appearance. Now we will be having a contractor seal the cracks in the asphalt, seal coat the entire surface and re-stripe the parking spots. We will also be upgrading the handicapped parking facilities to include van accessibility. Due to this work half of the lot will be closed on Monday July 18th and half will be closed on July 19th. We are asking for everyone's cooperation over this two day period as we complete this project. Any vehicles that are left will be towed at the owner's expense. Signs have been posted at the entrance to the lot notifying the public as of today and we will be placing signs in the individual spots indicating the dates they cannot be used." "We will also be distributing this press release to the businesses and placing handbills on cars in the parking lot and we thank everyone in advance for their cooperation," states Reardon.
