The Village of Rhinebeck will be resurfacing South Parsonage Street from East Market St (Rt. 308) south to Mill Street beginning Monday August 12, 2013. The project should be completed within two weeks. We are asking residents in this area for their cooperation. Please do not place any brush, garden debris etc. on the street during this time frame and please do not leave vehicles parked on the street. Your cooperation is necessary to speed this project along and allow it to be completed as quickly as possible. Brush pickup service will resume once the project is completed. We thank you in advance for your cooperation.
