845-876-7015

Mayor Jim Reardon announced today that the Village of Rhinebeck will be implementing improvements to the municipal water system in two different locations in the next week. Work will be conducted on Thursday October 24th

and on Tuesday October 29th. Due to this work there will be some lane and or road closures and it is suggested that people use alternate routes so as to lessen traffic congestion and delays. We thank everyone in advance for their cooperation.
